# VOLUNTEER APPRECIATION AT WIMMERA HEALTH CARE GROUP

More than 80 volunteers were recognised at a special volunteer appreciation evening at Wimmera Health Care Group last week.

President of the Board of Management, Mrs Bonnie Thompson said that volunteers play a key role in the organisation. "The evening was all about celebrating our volunteers and saying thank you to them" she said.

Mrs Thompson said that there are all sorts of dedicated volunteers at Wimmera Health Care Group. They range from people who visit the sick and elderly to those who provide entertainment to our residents.

"We have our auxiliaries and support groups who work tirelessly raising funds to purchase much needed equipment and we have the support of local community groups, service clubs, sporting organisations and business" she said.

"All of these people contribute enormously to Wimmera Health Care Group and we are very grateful for their ongoing support" she said.
